

Looking for **sharing
frens expenses** during
your social event?

Enter app & **Legho!**

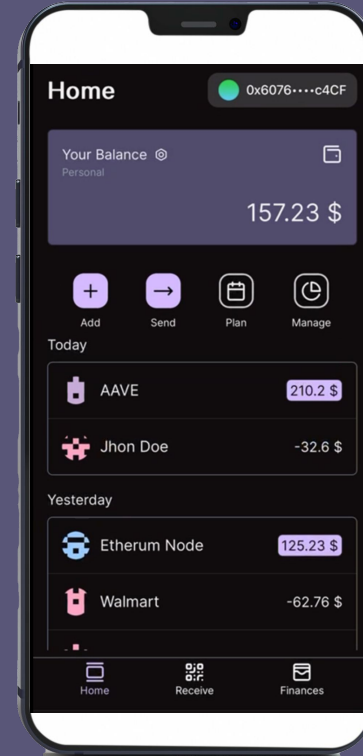

LEGHO

LEGHO

Send & Receive GHO between frens with Legho, a payment mobile dapp for your social events.

Scan the QR code address, then with the tokens that you have into your Smart Contract Wallet, you can send GHO to your frens.

Features

Plan

your own event with
your frens.

Manage

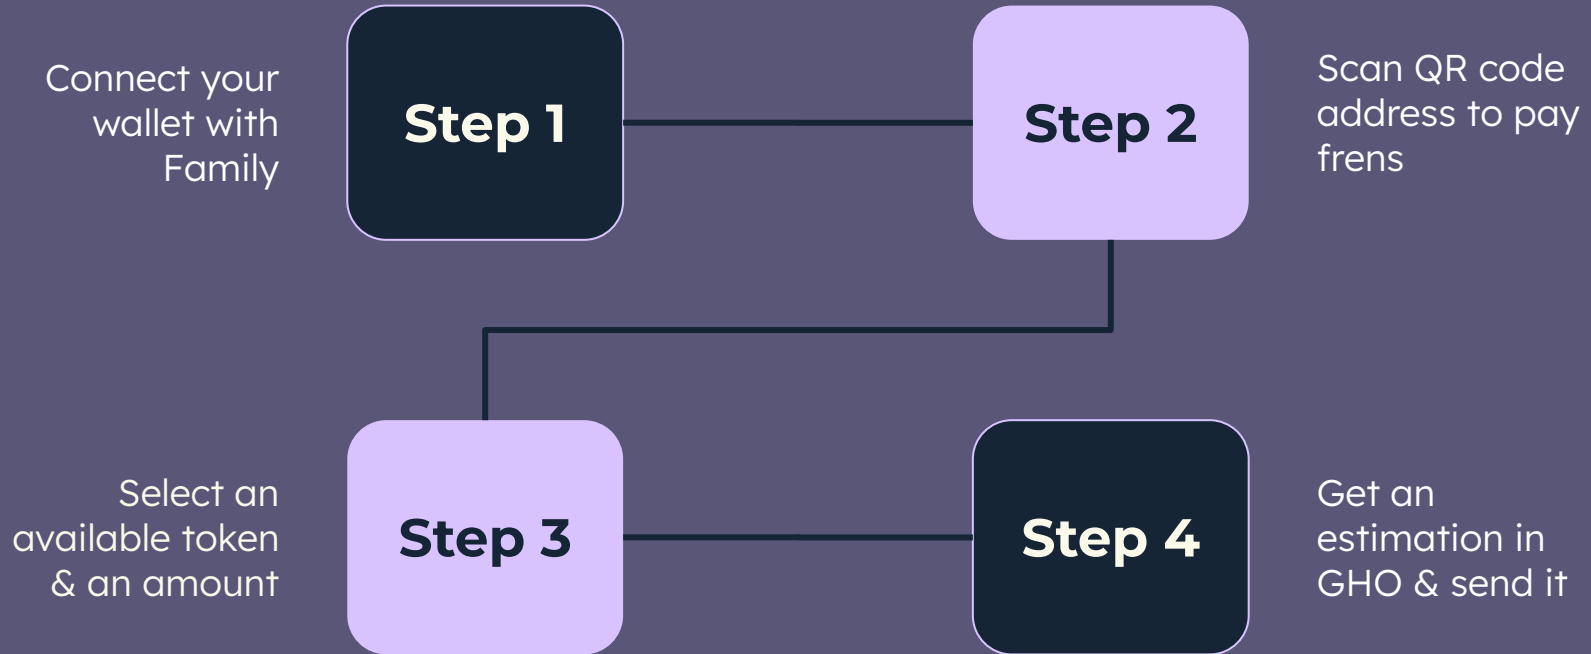

your portfolio and
expenses.

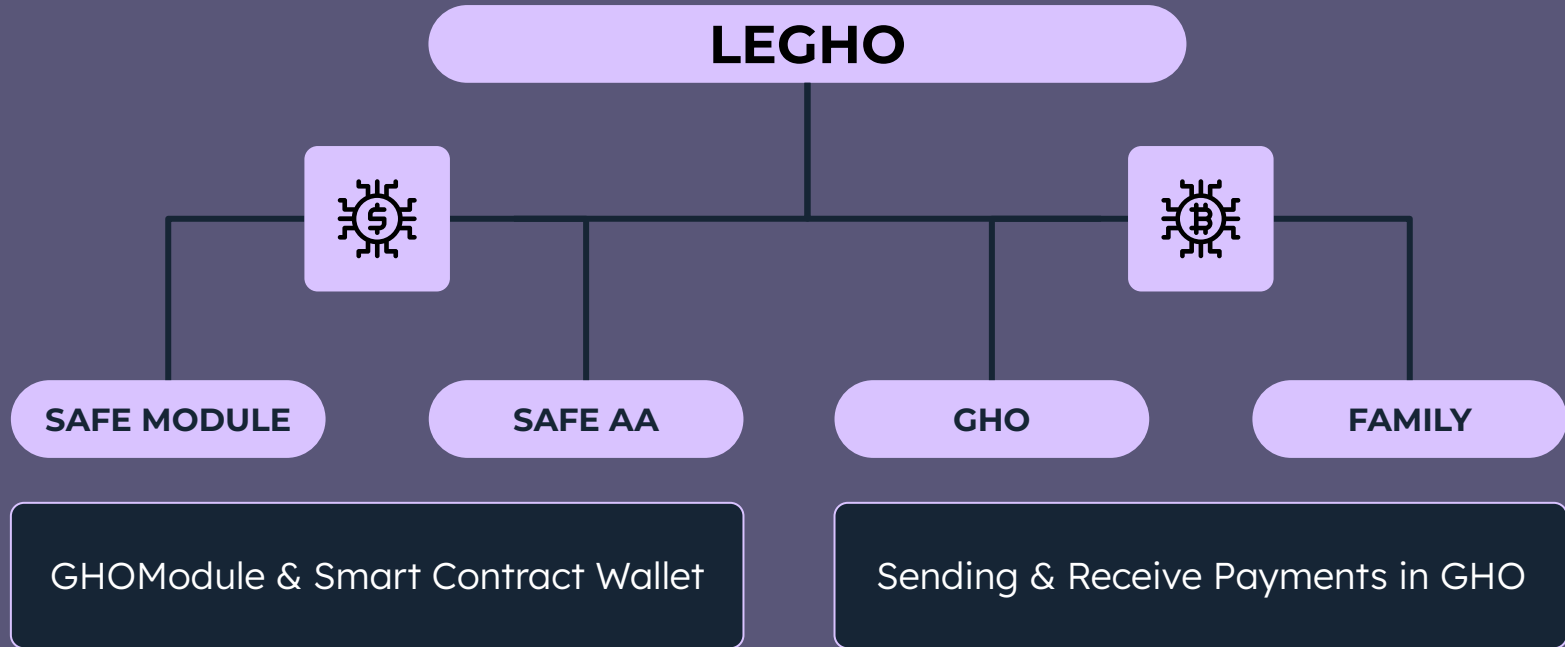

Send & Receive

GHO between frens by
leveraging account
abstraction.

User experience

Tools Infrastructure

Roadmap

Face ID Signature

Use the secp256r1 elliptic curve to sign with modern devices.

Token change

Automate the change of token in GHO into the contract.

Customizable Link

Beyond QR code, create a link to share with your frens for payments.

On-ramp

Buy GHO with credit cards and bank transfers into the dapp.
